To Whom It May Concern:

It is my pleasure to recommend Nutritious Lifestyles as a vendor. I have utilized the Dietician services of Nutritious Lifestyles over the years and have been very satisfied with the services that are provided in the skilled nursing facilities. The Dietician comes with a knowledge base, which provides continuous quality of care to our residents and education for our staff. Through the survey process, a Dietician is always available to assist in the survey management. Nutritious Lifestyle's efficiency, reliability and integrity are invaluable. Nutritious Lifestyles Dietician is instrumental in our facility's philosophy of reaching its goals.

Sincerely,

Anna Fortune-Louis
